THE COMMONWEALTH OF MASSACHUSETTS

1

REPORT ON THE STATISTICS OF COUNTY FINANCES.
FOR THE YEAR ENDING DECEMBER 31, 1947.

on. Henry F. Long, Commissioner of Corporations and Taxation,
State House, Boston, Mass.

ir:

Pursuant to the regulations of the Department of Corporations and
axation, I submit herewith a report on the statistics of County Finances
or the year ending December 31, 1947.

The last report of this nature was printed for the year ending December
1, 1941. During the war years publishing and printing reports were
restricted, due primarily to shortage of paper.

The statistics contained in this report were compiled from sworn returns
iled with this division in accordance with the provisions of General
aws, Chapter 35, Sections 44 and 45, and are similar to reports of previous
ears. Although the treasurer of the city of Boston is also the treasurer
f Suffolk county, he is by law exempt from making returns required by the
bove statute, and for that reason, only receipts and expenditures of such
uffolk county offices which are required to report are included. Although
he city of Boston pays the expenses of Suffolk county offices and institu-
ions, such expenditures are not included.

The summary table following the text of this report is a consolidation
f table 1 to 12 inclusive, with duplications eliminated so far as they can
e identified. The tables are set up as follows:

- Table No. 1 - Returns of County Treasurer, except Suffolk.
- Table No. 2 - Returns of Clerks of Supreme and Superior Courts.
- Table No. 3 - Returns of Clerks of District and Municipal Courts.
- Table No. 4 - Returns of Trial Justices.
- Table No. 5 - Returns of Registers of Probate.
- Table No. 6 - Returns of Registers of Deeds.
- Table No. 7 - Returns of Recorder and Assistant Recorders of Land Court.
- Table No. 8 - Returns of Sheriffs.
- Table No. 9 - Returns of Keepers of Jails and Masters of Houses of
Correction.
- Table No. 10 - Returns of Probation Officers in Superior, District and
Municipal Courts.
- Table No. 11 - Returns of Tuberculosis Hospitals.
- Table No. 12 - Returns of County Aid to Agriculture.

In compliance with General Laws, Chapter 35, Sections 44 and 45, the books and accounts of county treasurers were examined during 1947. Records of other county officers were also examined, and with a few exceptions the examinations were completed. Examinations not started prior to the close of the calendar year 1947, have since been completed.

For the most part the books and accounts reflect careful and conscientious work. As in the past, however, our examiners continue to uncover instances of official disregard or failure to comply with the requirements of laws, instructions, directions and requests of this office. Discrepancies in cash, allowing personal checks to remain among the cash items for an unreasonable length of time and failure to keep records up to date, are the general shortcomings most frequently noted. These conditions not only bring severe criticism on those officials by this office, but also hampers the service our examiners are able to render.

The cash discrepancies and personal checks found among the cash items were made good within the period allowed by law. The bringing up to date of records not found completed on the examiners first visit, requires a return trip to complete the examination. It is not within the duties of the examiners to do the bookkeeping of such officials, nor should he be forced to incur further expense to the commonwealth through loss of time, waiting for records to be brought up to date.

During the war years, the then Governor using the war emergency power granted him by the Legislature, issued on July 6, 1942, Executive Order #11 suspending the application of General Laws, Chapter 34, Section 17, so far as it effected the manner of contracting for the purchase of fuel for use in county buildings. On December 26, 1945 the then Governor issued Executive Order #86, rescinding the previous order #27 which brought back into effect the statutory requirements for the solicitation of bids by posting, advertising as well as for other matters concerning the awarding of contracts. While all counties received a copy of the Executive Order, in three counties at least the County Commissioners remained unaware that

Executive Order #27 had been rescinded. As there was no indication, however, of wilful violation of the statute, the Legislature validated such purchases of fuel for one county before they recessed in 1946; the other two counties had their purchases validated by the Legislature during 1947.

In order that it may be recorded for the guidance of county officials, I deem it advisable to report on a situation which developed in Bristol County during the year 1946.

Chapter 398, Acts 1945, provided for the appointment of the trustees of the Bristol County Tuberculosis Hospital by the Governor with the advice and consent of the Executive Council, in lieu of the County Commissioners acting in that capacity by virtue of their office.

The General Laws have made the county treasurer the custodian of funds belonging to the county and impose on him the duty of disbursing the same in accordance with law. Certain expenditures can be made only on order drawn and signed by a majority of the county commissioners and certified by their clerk. In view of the county commissioners no longer serving as trustees of the Tuberculosis Hospital, the County Commissioners felt it was not incumbent upon them to approve the hospital expenditures, or have them certified by their clerk. An opinion of the Attorney-General dated January 13, 1947, held, "that the county treasurer may not make payments in connection with the operation of Bristol County Tuberculosis Hospital without order of the county commissioners for the same, and it is the duty of the county commissioners to make such order for proper payment on account of salaries and expenses of the maintenance of said hospital." Thereupon the county commissioners approved for payment the aforesaid expenditures and will continue their responsibility under the law.

Under the provisions of General Laws, Chapter 35, as amended by Acts of 1945, Chapter 158, county commissioners are required to file with this office, on or before January 20th, estimates of county receipts and

expenditures for the ensuing year, which I am required to analyze, and report to the general court. These estimates include an item for "unpaid bills of previous years", concerning which, at the time the estimates were prepared the county commissioners had no knowledge of their actual amount, and which is often changed when heard by the Legislative committee on counties. Inasmuch as the county commissioners are unable to furnish me the exact amount included in the estimates for "unpaid bills of previous years", I have made a study of the items included and paid during 1947 and find certain items that could have been paid when received.

In volume one of the Opinions of Attorneys-General, page 391, it states that, "(1) interest or debt due from a county, (2) costs in criminal prosecution, (3) expenses of the courts and (4) compensation or salaries of county officers established by law may be paid from any money in the county treasury" and on page 509 will be found an opinion that, payments of "salaries of jailers, masters and assistants, and support of prisoners in jails and houses of correction", are payments "required by law", and may be paid from "any money in the county treasury".

In the light of such circumstances, it appears in order to more expeditiously honor these proper charges against the county, that county treasury instead of waiting upon a special appropriation for the purpose by the legislature at a future date, pay forthwith such items as are required to be paid by law notwithstanding the absence of an appropriation.

For the guidance of officials purchasing supplies and equipment for use in their department, it seems best to set forth the following procedure so far as the payment of such liabilities are concerned. When supplies and equipment are ordered and not received before the end of the fiscal year, the county commissioners should be so advised, so that they may make provisions to liquidate such liabilities prior to the passage of the appropriation act, by reserving from the unexpended balance of the appropriation

controlling the expenditures for maintenance of a particular department, an amount sufficient to make payment in full when the supplies or equipment are delivered.

A history of the classification of appropriation items in the form used prior to the change of 1948 extends back some fifty-two years. In 1895 the legislature for the first time specified not only the county tax to be assessed, but also set forth the appropriation items. The appropriation items set forth by the resolves of 1896 have remained constant from that year to the end of 1947, except for additional items needed to take care of additional activities placed under the control of counties.

Members of the division of accounts and county officials having most to do with the approval and payment of expenditures, have long felt that the appropriation schedule did not readily show to those not conversant with county finances, the actual maintenance cost of any particular service rendered by a county. With these conditions in mind, a new segregation of appropriation items was devised and put into effect beginning in 1948, after advising county commissioners and treasurers of our intent and affording them opportunity to express their views and comments on the changes proposed. This new segregation will serve to localize the appropriations as nearly as circumstances will permit to the respective county official responsible for their expenditure.

Each appropriation as now set forth in the estimates filed in this office in January, should include all possible items of expense for a particular activity for a full year.

Under the provisions of Chapter 5, Acts of 1943, counties were authorized to set up a Post-war Rehabilitation Fund and to purchase for this fund, United States defense bonds, war bonds, or other bonds which are legal for savings banks. Ten counties have invested in this fund \$1,015,455.89 and three counties are asking the legislature for authority to purchase

in 1948, \$82,500.00 more of these bonds for this fund. During the existing state of war, as these bonds mature, the counties are authorized to reinvest such matured funds in the same type of securities. At the termination of the existing state of war, the proceeds from the sale of these securities shall be used only for purposes authorized by the General Court.

The funded debt as at December 31, 1947, was \$253,000.00 which outstanding debt is being reduced annually by taxation and will be entirely paid off in 1951. There is also a contingent debt for construction of certain county hospitals amounting to \$332,600.00. This debt is being reduced by annual assessment against the hospital district and will be entirely retired in 1957. The above however, does not include temporary loans for maintenance of tuberculosis hospitals, which are annually recurrent in anticipation of reimbursement.

Respectfully submitted,

Francis X. Lang

Director of Accounts

State House, Boston
March 10, 1948

CONSOLIDATION OF TABLES NOS. 1 to 12,
INCLUSIVE.
